

JRI distributes Naviswiss

Contact: info@naviswiss.eu

Naviswiss is delighted to announce a partnership with JRI Orthopaedics (UK) for the distribution of our ground breaking surgical navigation system in the UK, Spain and other European countries. Naviswiss' hip navigation system is also an important addition to JRI's expanding product portfolio and Naviswiss wins a strong distribution partner. Orthopedic surgeons are actively seeking smart ways to further improve the simplicity, reproducibility and outcomes of total hip replacement for their patients, and Naviswiss is designed to deliver these improved patient outcomes. JRI Orthopaedics commented on their excitement at distributing this powerful new clinical tool, and complementing their highly proven range of hip solutions.
